Subject: RE: Discussion on GE salmon

Hi Michael,

Thank you for the note and nice to hear from you!

Has additional research come to light that you'd like to share? Or has your position altered? If you could let us know a little background about what you would like to discuss, we can work to set something up. I want to ensure the conversation is productive and a good use of everyone's time!

In both our phone conversations and the attached, we have conveyed that **we have no plans to sell GMO-salmon**. Feel free to reference the note if any of your stakeholders are curious. Of course please refer any media inquiries you receive regarding our position over to our shop. I am happy to put those journalists in touch with the relevant spokesperson if they need additional clarification.

Best,
Katherine
