Dear Ms. Perls,

We appreciate the opportunity to respond to your letter of March 20, 2015, regarding genetically engineered apples in Wendy's supply chain.

Wendy's is committed to quality, fresh and safe food and we work hard every day to deliver great products to our customers.

At this time, the varieties of apples we use in the U.S. are all non-GMO and we have no plans to change our sourcing to the new varietal about which you raise concerns.

Thank you for your interest in Wendy's.

Sincerely,

Mary Schell
