

Dear Representative,

I am writing today to urge you to take immediate action to advance a strong Green New Deal, and to consider the following principles as the 116th Congress debates climate change legislation and momentum around the country builds for a Green New Deal.

I urge you to support a Green New Deal that includes the following: 1) Phase out fossil fuels and transition the economy to 100 percent renewable energy 2) Transition away from energy-intensive, polluting, inequitable industrial agriculture and build a healthy, just food system where organic is for all 3) Decarbonize transportation and expand access to affordable public transit 4) Ensure a fair and just transition, led by impacted workers and communities, including frontline, vulnerable, and indigenous communities disproportionately burdened by toxic pollution 5) Uphold Indigenous rights 6) Include a national jobs guarantee, creating good jobs with collective bargaining rights and family-sustaining wages for all workers, including farmworkers, that currently lack most federal labor protections.

Sincerely,
