

We stand for justice.

We stand for people.

We stand with you.

Will you stand with us?

*Defending the environment
and championing a healthy
and just world.*

Friends of the Earth believes that the movement to **protect the environment** is part of the fight for the American Dream.

By tackling the economic and social systems that protect profits above people and the planet we can empower communities and workers as well as **solve environmental challenges.**

Friends of the Earth is committed to building relationships with communities across social, economic and political boundaries, and to listening to, learning from and **amplifying the voices of our allies.**

If you share these values, we invite you to **join us** and our allies in the struggle for a healthy and just world.

To learn more about our values and to join us, visit www.foe.org/signup.
