

A BOLD FEARLESS VOICE FOR JUSTICE AND THE PLANET

Friends of the Earth believes that the movement to restore and protect the planet, and the fight for social and economic justice are part of the same struggle.

We know that the progressive netroots community shares our values and that's why we're so proud to support Netroots Nation. The world needs more voices like yours.

Together, we can find solutions to climate change, keep toxic and risky technologies out of the food we eat and products we use, and protect marine ecosystems and the people who live and work near them.
